1716 47  
PRESS RELEASE FROM THE PREMIER, MR. DUNSTAN.

MURRAY NEW CITY PLANNERS NAMED.

3/5/72

A top-level committee to oversee planning of the new city near Murray Bridge was today named by the Premier, Mr. Dunstan.

The committee will be the co-ordinating body for development of the city - expected to serve a population of up to 200,000 by the end of the century.

Chairman of the five-man body will be Mr. R.D. Bakewell, Director of the Department of the Premier and of Development.

Other members are: Mr. A.M. Ramsay, General Manager of the S.A. Housing Trust, Mr. S.B. Hart, Chairman of the State Planning Authority, Dr. W.G. Inglis, Director of Environment and Conservation and Mr. K.C. Belchamber, Assistant Director of Industrial Development.

Mr. Dunstan said the steering committee would first of all make recommendations about the location of the city in the Murray Bridge area.

It would consider employment prospects, housing, education, health and other related social planning matters.

Members would also look into possible incentives for the encouragement of industrial and commercial undertakings in the new city and the type of authority which would eventually be necessary to develop the new town.

The Premier said the steering committee would not itself undertake the actual planning work - it was a co-ordinating group to achieve as quickly as possible the Government's objectives.

The Government expected to call on world authorities in new city design to develop an integrated growth pattern.

Mr. Dunstan said it was anticipated that detailed planning - to ensure that standards would equal if not better those used currently in Canberra or the best of English new towns - would be in the hands of a prestige consultant.

It was planned the consultant would be backed up by an expert design team.

The steering committee is expected to present an interim report to Cabinet by the end of this year.
